

WE ARE HIRING

SASSCAL Graduate Studies Programme

In an effort to address the capacity needs of the Southern African Development Community (SADC) water sector, the Southern African Science Service Centre for Climate Change and Adaptive Land Management (SASSCAL) established the SASSCAL Graduate Studies Programme in Integrated Water Resources Management (SGSP – IWRM) at the Namibia University of Science and Technology. The programme is implemented by NUST in partnership with the International Centre of Water Resources and Global Change based at the Institute of Hydrology in Koblenz Germany. The SGSP-IWRM is fully funded by the Federal Ministry of Education and Research (BMBF). The objective of the SGSP – IWRM is to develop and deploy an innovative and excellent regional collaborative education and research programme at the PhD level complemented by selected tailor-made short courses.

Communications Officer

Requirements

A Bachelor's degree (NQF Level 8) in a combination of Natural Resources Management/Environmental Management with a bias in science communication/Marketing/Advocacy or other suitable discipline or equivalent with at least two years practical experience in water/environmental/sustainability and development issues providing strategic programme visibility, communications, networking, and impact/output support in all media both internally and externally including electronic and print media.
